

PRESS RELEASE

HOGIER GARTNER & CIA. S.A, distributor of Galitt Testing Tools in Colombia, Peru and Panama

Boulogne-Billancourt (France), July 10th, 2017

HOGIER GARTNER announced its alliance with Galitt to offer the whole range of testing software developed by Galitt, KaNest[®] simulators and VisuCard[®] products in Colombia, Peru and Panama. The distribution agreement allows HOGIER GARTNER to sell and support Galitt's simulation tools to facilitate testing and certification for any transactional system, such as smartcards, POS terminals, mobiles, payment networks and hosts as well as control and validation of personalization for any contact and contactless cards.

Álvaro Gartner, from HOGIER GARTNER declared: "This is an opportunity to enter a partnership that will lead to improvements in our business throughout the American continent, by complementing our existing transactional products. For this, Galitt's experience and recognition in certification and simulation software are an asset".

François Inglebert, Marketing Director – Testing Solutions, within Galitt, stated: "We believe that HOGIER GARTNER will leverage the use of our tools on transactional and payment systems in these three active countries, due to its business knowledge of these markets and its recognized technical expertise."

KaNest[®] simulators provide a unique customizable test tool to validate messages and interfaces between transactional systems, including card processing systems and stock exchanges. The degree of customization and flexibility provided by KaNest[®] gives it a leading position in the testing tool marketplace. KaNest[®] ICC simulators aim at testing smartcard and accepting devices, having been recognized by the major international card schemes (i.e.: EMVCo, American Express, Discover Financial Services, MasterCard, Visa, etc.) as a tool for certification purposes. The KaNest[®]-File simulators allow users to test and validate file processing. It ensures that batch programs process files in accordance to given formats. VisuCard[®] products are a range of personalization validation tools, supporting contact and contactless cards while implementing testing plans provided by international brands, qualified by the major ones.

About HOGIER GARTNER & CIA. S.A. (www.hogier.com) – Established in 1953, HOGIER GARTNER & CIA is currently present in about ten countries throughout the American continent. Specialized in the production and customization of cards, the company is well-known for its technological innovations and high level of security. HOGIER GARTNER & CIA offers sophisticated products to its customers. The company has reached excellence in the smart cards industry.

About Galitt (www.galitt.com) – Galitt offers consulting and services dedicated to payment systems and secure electronic transactions. With a full set of recognized skills and know-how, Galitt assists its clients during the whole project life cycle: experts from the *Payment Consulting* Unit with their innovative approaches shed light on strategic choices; consultants from the *Payment Services* Unit support customers implementing their payment projects; teams from *Testing Solutions* Unit develop test software and take an active role in test automation and certification processes; staff from the *Payment Solutions* Unit build and run added-value payment applications; trainers from the *Payment Education* Unit broadcast Galitt expertise and skills during their seminars. Catti™, KaNest®, VisuCard®, G-Tokenizer™ and VisuBank® are software designed, developed and maintained by Galitt that may also host and operate them.
