

## PRESS RELEASE

### *ACI Worldwide selects KaNest® test tools to validate its Pan-European centralized card payment solution for retailers according to EPAS & OSCar standards*

**Boulogne-Billancourt (France), November 04<sup>th</sup>, 2014**

**Galitt, a KaNest® test and certification software tools vendor, in association with Elitt for the EPAS and OSCar solution, announced that ACI Worldwide has selected KaNest® to validate its Pan-European centralized platform for retailers to comply with the international EPAS standard.**

ACI Worldwide (NASDAQ: ACIW), a leading global provider of electronic payment and banking solutions, will use KaNest® test tools to validate its multichannel platform according to EPAS and OSCar International standards.

Galitt, which benefits from its extensive experience in test tools for the card and payment industry, offers a unique homogeneous suite of tools: unit testing, acceptance testing, evaluation and certification, prototyping, stress and load testing.

KaNest®'s solution for OSCar is the result of a collaboration between Galitt and Elitt, a secure electronic transactions specialist that processes international payment systems. With complimentary expertise in test tools designed to automate test benches for OSCar-compliant terminals, both companies are able to provide documented diagnostics on test results.

Sylvie Boucheron-Saunier, General Manager, Continental Europe for ACI Worldwide, said : “Galitt test tools are globally endorsed by the payment industry. Their importance is confirmed for European standards compliance, and these test tools will help us to certify—in 2015—our Pan-European centralized solution for retailers. We believe that many retailers will adopt EPAS in the near future.”

Diane Walch, Business Development Director from Galitt said: “We share ACI’s vision of an international standardization for card payments and are excited to have them join KaNest® users for these projects.”

**About Galitt ([www.galitt.com](http://www.galitt.com))** – For 25 years, Galitt has been offering consulting and services in payment systems and secure electronic transactions. Regarding consulting and assistance, Galitt is providing its customers with services from strategic choices to system implementation via system design and support: business consulting, EFT business analysis and expertise, audit and security, design, specification & project management, acceptance testing, technical assistance and development, training. Engineering and technology activities are covering bespoke development, software integration, turnkey solutions, hosted solutions and testing software. Galitt indeed offers petrol and loyalty card solutions (Catti™), simulators (KaNest®), personalization validation tools (VisuCard®) and added-value solutions (VisuBank®, private labels...).

Being the reference in payment systems and electronic transactions, Galitt is the leader in France in all its businesses, and a worldwide leader in providing test tools and expertise in payment innovation.

**About Elitt ([www.elitt.com](http://www.elitt.com))** – ELITT (EuroLab for International Transaction Technologies) is a B-to-B service company specialized in secure electronic transactions. ELITT’s business is to verify the proper operation of products (cards, mobile phones, acceptance systems, unattended terminals, etc.) and elements of the processing chain that are submitted during the phases of design, production and deployment. The triple expertise of ELITT (evaluation – technical consulting services - audits) applies to domains of banking transaction, transportation, healthcare and identity.

Subsidiary of Groupement des Cartes Bancaires CB, ELITT has been the industry reference for 25 years, known for the expertise, flexibility and quality of its services. Member of the Secured Electronic Transactions (TES) cluster, ELITT is based within the EffiScience campus near Caen, France, and offers its expertise internationally.
