

PRESS RELEASE

Galitt, in partnership with Elitt, obtains the first OSCar certificates for KaNest® test tools

Boulogne (France), November 2015, 18th

Galitt, in partnership with Elitt, is pleased to announce that KaNest® for OSCAR POI is now qualified by OSCar, following the qualification of KaNest® for OSCAR/EPAS acquirer in February 2015.

After a successful pilot in 2013-2014 based on a first version of standards, the current solutions have been developed for live deployment purposes.

Thus the KaNest® test tool can be used by all laboratories wishing to perform validation testing of OSCAR POI and acquirers or by OSCar solution providers during their development phases.

The qualification of KaNest® is the result of a validation period arbitrated by the certification body Paycert. If the certificate for validation testing regarding acquirers was delivered from February, 2015, the qualification of the POI side allows now Galitt to propose to the market a complete range of qualified testing tools, assuring the interoperability of solutions.

G rard Tchakgarian, President of Galitt, highlights: *"As a SME, we have strongly invested for more than 5 years in the new standards of card payment, which we believe, are fundamental for the future of Europe. Being the first test tool provider in the world to get certificates recognized by OSCar is a strong symbol of which we are extremely proud"*.

About Galitt (www.galitt.com) – Galitt offers consulting and services in payment systems and secure electronic transactions. Regarding consulting and assistance, Galitt is providing its customers with services from strategic choices to system implementation via system design and support: business consulting, EFT business analysis and expertise, audit and security, design, specification & project management, acceptance testing, technical assistance and development, training.
