

PRESS RELEASE

Bancontact/Mister Cash uses Galitt VisuCard® for card personalization validation

Boulogne-Billancourt (France), December 7th, 2015

Galitt is proud to announce that its expertise is recognized once again as Bancontact/Mister Cash, the Belgian market leader in electronic payment services, has qualified Galitt's VisuCard® personalization validation tool.

Bancontact/Mister Cash (BC/MC) will use Galitt's VisuCard® personalization validation tool as its means of control for the personalization of Bancontact cards. In order to ensure a smooth acceptance of their cards, BC/MC card issuers can obtain, via Galitt, the Galitt VisuCard® tool, with BC/MC personalization recommendations, and will be able to test their cards' personalization.

VisuCard® allows to control the personalization of data in a payment card according to a set of rules. Bancontact/Mister Cash and Galitt have been working together to define the rules that allow an efficient control of the card personalization data.

Now, VisuCard® and the set of rules relating to the card data personalization, has been qualified by Bancontact/Mister Cash, proposing a tool for issuers wishing to distribute payment cards on the Belgian market.

Kris De Ryck, CEO of Bancontact/ Mister Cash Company declares: "As Galitt's VisuCard® allows a full check of the personalization data for our payment cards, we're happy to qualify it, and we believe this will make the implementation of new electronic payment services faster and easier."

Gérard de Moura, Managing Director, Galitt adds: "VisuCard® supports all EMV card application specifications. Integrating Bancontact/Mister Cash's personalization recommendations was the natural continuation of our collaboration for the Belgian market."

Recognized for its user-friendliness, Galitt VisuCard® allows to fully control the personalization profile for all cards complying with the EMV standard. It supports personalization profiles for all major international payment schemes, as well as national schemes such as Bancontact/Mister Cash, Groupement des Cartes Bancaires CB... VisuCard® flexibility makes it the ideal tool for international and national payment schemes as well as for the deployment at all card issuers.

About Galitt (www.galitt.com) – For more than 20 years, Galitt has been offering consulting and services in payment systems and secure electronic transactions. Regarding consulting and assistance, Galitt is providing its customers with services from strategic choices to system implementation via system design and support: business consulting, EFT business analysis and expertise, audit and security, design, specification & project management, acceptance testing, technical assistance and development, training.
