

## PRESS RELEASE

### *ICTK to distribute GALITT Test Tools in Korea*

**Seoul (Korea), December 01<sup>st</sup>, 2010**

GALITT announced its alliance with ICTK to offer the KaNest<sup>®</sup> and KaNest<sup>®</sup>-ICC testing and certification tools in Korea. The distribution agreement allows ICTK to sell and support GALITT's simulation testing tools to facilitate certification testing of smartcard and transactional systems.

The agreement also allows ICTK to sell and support Personalization Validation Tools from GALITT, the VISUCARD<sup>®</sup> products.

Donghyun KIM, Vice President of ICTK, declared: "ICTK, with its long experience as an EMVCo and Visa recognized laboratory, strongly believes in the potential of GALITT tools to provide the Korean payment systems industry with greater efficiency for their development and certification process, thus enabling quicker time to market, improve product quality and confidence."

Gerard de MOURA, Managing Director of GALITT, stated: "We believe that the high level of card expertise of ICTK will allow the local industry to leverage the use of our tools and thus accelerate validation process and reduce time-to-market. This agreement also confirms our intent to strongly support the very active and innovative Korean payment market."

**About ICTK** ([www.ictk.co.kr](http://www.ictk.co.kr)) – As an accredited lab, **ICTK** has experienced IC system experts to provide professional testing services. With accumulated knowledge and experience in certification, ICTK delivers the pride of customers' product through various kinds of payment system testing such as EMV Debugging and Type Approval test for terminal, Visa contact and contactless approval test for card as well as IrFM.

**About GALITT** ([www.galitt.com](http://www.galitt.com)) – For more than 20 years, GALITT has been offering consulting and services in payment systems and secure electronic transactions. Regarding consulting and assistance, GALITT is providing its customers with services from strategic choices to system implementation via system design and support: business consulting, EFT business analysis and expertise, audit and security, design, specification & project management, acceptance testing, technical assistance and development, training. Engineering and technology activities are covering bespoke development, software integration, turnkey solutions, hosted solutions and testing software. GALITT indeed offers petrol and loyalty card solutions (CATTI<sup>™</sup>), simulators (KaNest<sup>®</sup>), personalization validation tools (VISUCARD<sup>®</sup>) and added-value solutions (VISUBANK<sup>®</sup>, private labels...).

Being the reference in payment systems and electronic transactions, GALITT is the leader in France in all its businesses, and a worldwide leader in providing test tools and expertise in payment innovation.
