

## PRESS RELEASE

### *The UICC Contactless Extension (Amendment C configuration) Test Suite from Galitt, qualified by GlobalPlatform*

**Boulogne (France), August 7th, 2012**

GlobalPlatform, the organization which standardizes the management of applications on secure chip technology, is committed to ensuring the long-term interoperability of smart technologies by developing an open and successful compliance ecosystem with test tool suppliers. When a product is compliant with the GlobalPlatform Specifications and its related market configurations, it means that a vendor has successfully evaluated its functional behavior against the requirements outlined by GlobalPlatform technology.

Leveraging its KaNest<sup>®</sup>-ICC simulator as a card test tool, Galitt has implemented in March 2011, the GlobalPlatform Test Suite released for the UICC Configuration to create the KaNest<sup>®</sup>-ICC GP UICC Card Test Suite. It was the **first test tool of the market** which could be officially used to evaluate compliance to a specific GlobalPlatform card configuration.

Today, Galitt carries on its commitment in the GlobalPlatform Card Compliance Program and is proud to catch the first wave of qualification for the UICC Contactless Extension (Amendment C) Test Suite.

Gerard De Moura, Managing Director of Galitt, stated: "We are still very excited to be actively participating in the GlobalPlatform Compliance Programs covering cards, TEEs (Trusted Execution Environment) and TSMs (Trusted Service Manager). Such programs enable Galitt to provide highly valuable qualified tools to the industry. This newly qualified GP UICC Contactless Extension Test Suite thus extends our range of high-end card test tools."

**About Galitt** ([www.Galitt.com](http://www.Galitt.com)) – For more than 20 years, Galitt has been offering consulting and services in payment systems and secure electronic transactions. Regarding consulting and assistance, Galitt is providing its customers with services from strategic choices to system implementation via system design and support: business consulting, EFT business analysis and expertise, audit and security, design, specification & project management, acceptance testing, technical assistance and development, training. Engineering and technology activities are covering bespoke development, software integration, turnkey solutions, hosted solutions and testing software. Galitt indeed offers petrol and loyalty card solutions (Catti<sup>™</sup>), simulators (KaNest<sup>®</sup>), personalization validation tools (VisuCard<sup>®</sup>) and added-value solutions (VisuBank<sup>®</sup>, private labels...).

Being the reference in payment systems and electronic transactions, Galitt is the leader in France in all its businesses, and a worldwide leader in providing test tools and expertise in payment innovation.
