

PRESS RELEASE

MultiPay to distribute Galitt Test Tools in Colombia and in Peru

Boulogne (France), October 31st, 2012

MultiPay announced its alliance with Galitt to offer personalization validation tools, the VisuCard® products, and testing and certification tools, the KaNest® simulator range, in Colombia and in Peru. The distribution agreement allows MultiPay to sell and support Galitt's simulation testing tools to facilitate certifiable testing of smartcard and transactional systems and also the control and validation of any contact and contactless cards.

Sofia Cuestas, General Manager of MultiPay, declared: "It is highly relevant for us to have a partner like Galitt and to participate in the entrance of this world leader in, consulting and services in payment systems and secure electronic transactions in the Colombian and Peruvian market. The portfolio of solutions offered by Galitt substantially complements the value offer by MultiPay and strengthens the strategic guideline of our organization. Our partner will count with the commitment of our team to penetrate the local market and position their products".

François INGLEBERT, Sales & Marketing Director, Products and Solutions of Galitt, stated: "we believe that MultiPay will leverage the use of our tools on transactional and payment systems in Colombia and in Peru, thanks to its business knowledge of these markets and its recognized technical expertise".

KaNest® simulators provide a unique customizable test tool to validate exchanges between transactional systems, including card processing systems and stock exchanges. The degree of customization and flexibility provided by KaNest® leads the test tool marketplace. KaNest®-ICC simulators aim at testing smartcard and accepting devices, and have been recognized by many Card Schemes (i.e.: EMVCo, Visa, Discover Financial Services...) as a tool for certification purposes. The KaNest®-File simulators allows users to test and validate file processing. It secures that batch programs process files in accordance with given formats.

VisuCard® products are a range of personalization validation tools supporting contact and contactless cards, implementing test plans provided by international brands and qualified by the major ones.
